Modern Roman Shades

## Vignette® Modern Roman Shades

Vignette® Modern Roman Shades offer distinctive woven fabrics that bring the luxury of texture and color to every window.

- Semi-sheer and room-darkening fabrics options
- Headrail conceals and protects the shade when raised – no fabric stack to obstruct the outside view
- Smooth, neutral back fabric –no cords or strings visible to the outside when shade is lowered.

### UNIQUE FOLD STYLES

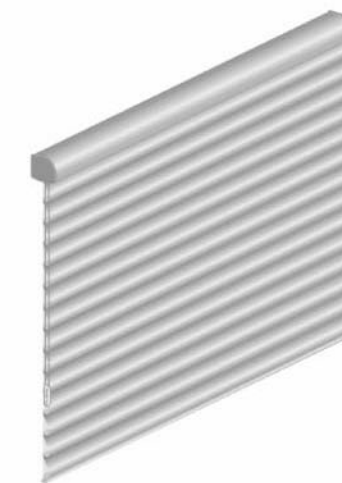

- Vignette Traditional – soft, billowy Traditional 3" contoured folds.

### LIFTING SYSTEMS

- EasyRise™ – continuous cord loop and clutch system standard with all Vignette Shades.

VIGNETTE® MODERN ROMAN SHADES

### HOW TO USE THE SIZE STANDARDS CHARTS

The Size Standards charts are designed to be a quick reference to size standards and where to find further product specifications. At the bottom of this page are important general notes for all applications. Important: shade dimensions must be equal to or less than the maximum dimensions (width and height) and equal to or greater than the minimum dimensions (width and height) to be within specification guidelines.

SIZE STANDARDS Maximum Height Per Width	Single Panel Shades: EasyRise™													
	Width To:	24"	30"	36"	42"	48"	54"	60"	66"	72"	78"	84"	88"	96"
HEATHER SATIN STRIPE Twill	Standard Traditional Folds	102"	102"	102"	102"	102"	102"	102"	102"	102"	—	—	—	—
LINEN WEAVE	Standard Traditional Folds	102"	102"	102"	102"	102"	102"	102"	102"	102"	90"	84"	72"	66"
LYON MOSAIC	Standard Traditional Folds	102"	102"	102"	102"	102"	102"	102"	102"	102"	84"	78"	72"	—
RIBBON WEAVE SATIN WEAVE SEERSUCKER	Standard Traditional Folds	102"	102"	102"	102"	102"	102"	102"	102"	102"	—	—	—	—
VINTAGE SCROLL	Standard Traditional Folds	102"	102"	102"	102"	102"	102"	102"	102"	102"	84"	78"	72"	—

### Notes For All Applications

- To achieve the exact ordered height of Vignette® Shades, the bottom fabric fold (attached to the bottom rail) may need to be slightly shorter than the other folds. This is a normal and inherent characteristic of the product and is not considered a defect.
- Typically, when Vignette Shades are fully raised, only a portion of the bottom rail remains visible under the headrail. In some instances, a fabric fold may not be completely concealed inside the headrail and may be visible behind the bottom rail. This is a normal and inherent characteristic of the product and is not considered a defect.
- Pattern alignment between the fabric-covered headrail and shade cannot be guaranteed with patterned fabrics.

## Modern Roman Shades

### EasyRise™ Product Specifications

VIGNETTE® MODERN ROMAN SHADES

### APPLICATION

- Vignette® with EasyRise™ Standard
  - Fits rectangular window openings.
  - Shades open from bottom to top using EasyRise cord loop.

### Size Standards

See Size Standards on pages 2

### Mounting Requirements

Inside (IB) Mount	
Minimum casement depth (1" recommended for maximum privacy)	7/8"
Minimum casement depth, fully recessed	3 7/8"
Outside (OB) Mount	
Minimum mounting surface height	3/4"
Recommended width overlap, per side	4"
Recommended top overlap	3 1/4"
End (EB) Mount	
Minimum mounting surface depth	1 1/2"

### Fabric-Covered Headrail Notes

- Pattern alignment between headrail and shade cannot be guaranteed with patterned fabrics.
- Shades ordered wider than 72" may be fabricated with a seam in the headrail, including those fabrics available in 88" and 96" widths.

### Finished Dimensions

(All allowances are taken from ordered dimensions and may vary ± 1/8")

Inside (IB) Mount	
Headrail unit	- 3/16"
Shade Height	- 1/8"
Fabric Width	- 1 1/8"
Outside (OB) Mount	
Headrail unit	ordered width
Shade Height	- 1/8"
Fabric Width	- 1 5/16"
End (EB) Mount	
Headrail unit	- 11/16"
Shade Height	- 1/8"
Fabric Width	- 1 1/2"

### Cord Loop

Standard Cord Drops Color Coordinated		
Shade height 16"	to	26 7/8" 1'
Shade height 27"	to	39 7/8" 2'
Shade height 40"	to	59 7/8" 3'
Shade height 60"	to	83 7/8" 4'
Shade height 84"	to	107 7/8" 5'
Shade height 108"	to	120" 6**

### Edge Gaps

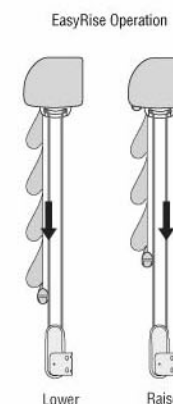

Inside (IB) Mount (from window opening edge to fabric)	
Control side	1/8"
Free side	1/2"

### Hardware Included

Standard installation brackets  
Color-coordinated cord loop, tensioner and end caps

### To Raise the Shade

The shade is raised by pulling on the rear of the cord loop. The fabric first moves forward, away from the window and then rolls up to conceal itself inside the headrail. When the shade is fully raised, stops on the end caps of the headrail and bottom rail prevent further movement.

### Manual Lifting Systems Design and Operation

(EASYSRIS™ CORD LOOP)

#### To Lower the Shade

Pull on the front of the cord loop to lower the shade. Continuing to pull on the cord shifts the fabric back to within 7/8" of the window or mounting surface.

### SHADE ADJUSTABILITY

Shade should wind evenly and not skew to one side if skewing does occur:

- Ensure headrail was installed level; shim if necessary.
- Adjust placement of weight in bottom rail 1" at a time, toward side where fabric is gathering.

### Side-By-Side Fold Alignment

When manual Vignette Modern Roman Shades are installed side by side, vane alignment can be guaranteed within 1/4" only if:

- Shades are ordered at the same time and in the identical style, color, height, lifting system and application.
- Shades that need to be aligned are specified on the order form (a note must be included in Special Instructions).
