BALLETTE
Drapery Sheers

PVC Vanes - Close

PVC Vanes - Open

Draperies - Open

Ballete™ Drapery Sheers are sophisticated sheers with an innovative head rail design which allows smooth and quiet handling. The appealing fabric billows are fashioned from continuous lengths of soft & flowing polyester. **Ballete™** gently filter the sun's incoming rays while assuring privacy in the room. When full privacy is required, the optional PVC vanes can be added throughout the length of the sheer to create a peaceful home environment that soothes your senses.

BALLETTE™

Drapery Sheers

*Indulge your imagination with this sheer fabric collection, selected to complement today's decor trends. The clean cut edges of **Ballette™ Drapery Sheers** are fray resistant, therefore no visible hems are found anywhere on the shading.*

WIDE FABRIC SELECTION

A wide selection of **Ballette™** sheer fabrics exhibit an array of translucent patterns and textures. Many **Ballette™** colours coordinate with Sheer Horizontals.

LIGHT CONTROL IN ROOMS

Traditional cord allows **Ballette™** Sheers to rotate open, close and stack to achieve any level of light control.

All **Ballette™** fabrics are light filtering. Therefore, to achieve a room darkening effect, opaque vanes are added to provide privacy when the sheers are closed.

Curtain displays are not intended to be Ballette™ Drapery Sheers set of window coverings.

A NEW LOOK FOR DRAPERIES

Ballete™ Drapery Sheers are luminous woven vertical shadings with classic, flowing draperies. An alluring alternative to traditional sheers, the panels gracefully open and stack to reveal your favourite view.
